

# **AMWAJ CAMP**

## **MESAIEED GLOBAL VILLAGE 2**

*“A HOME AWAY FROM HOME”*

## CAMP INTRODUCTION

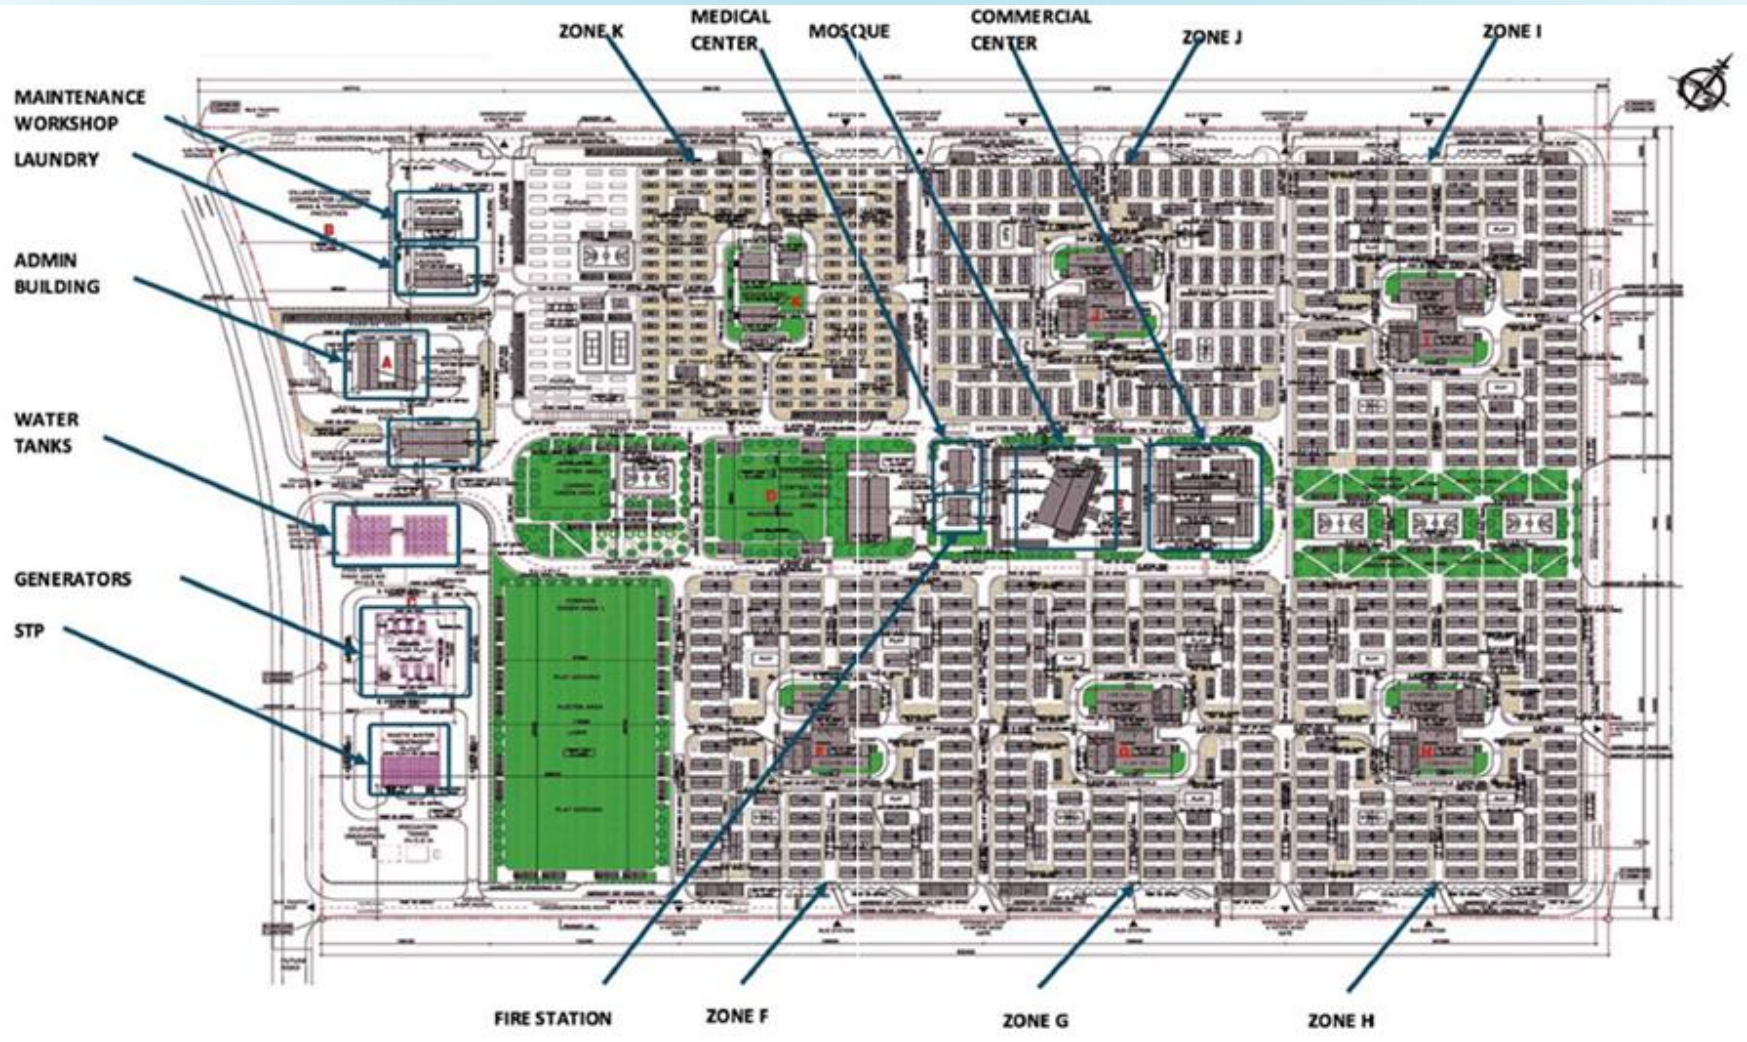

Located at Mesaieed, AMWAJ camp is constructed over an area of 492,000 sq. meters with a bed capacity of accommodating 6,000 residents. AMWAJ takes on board that there is a continuous need for facilities that provide a high standard of living for migrant workers that encompass and addresses every aspect of staff wellbeing.

Also, we recognize the proven fact that a happy and content workforce transcribes into enhanced productivity. Therefore, besides providing nutritionally balanced meals that takes into consideration demography of the population and ethnic requirements, other support services like housekeeping, laundry, janitorial and adequate recreational facilities are also of paramount importance and will make a positive contribution towards achieving a high morale level that results in reduced cases of health issues and undesired behavioral issues.

Should the camp resident fall ill, an in-house medical clinic with certified doctor and nurse is available around the clock. However, should there be a medical emergency, the camp resident has access to Mesaieed Hospital which is located opposite our Camp.

AMWAJ Camp is operated in a “Motel Style”, which ensures that sufficient resources are available at all times for successful delivery of high quality and standard of services, in-line with the requirements of Supreme Committee Delivery & Legacy.

# CAMP LAYOUT
